EUR/USD Fix		1,14560	1,13920	1,13400	1,13420	1,14080	
USD/JPY Fix		161,5520	161,5640	161,7720	161,7870	161,7005	
Öl/BRT	USD/Barrel	77,9000	77,0800	73,7400	75,2600	72,4820	

A major correction in the futures markets, following the easing tensions in the middle east. Lower oil and therefore lower SR prices are dragging natural rubber prices down as well, triggering cut loss levels of financial investors and speculators.
Prices for physical rubber are lagging though, with prices only adjusted slowly.

Freight rates remain at the highest levels since the post Covid supply chain restoration, despite reports that the Straits of Hormuz is gradually accessible again.
